

Tuchu — Privacy Policy

Last updated September 3, 2020

We value your privacy. This is why we only collect usage and statistical data. We do not store your documents after we've highlighted them. In fact, they never leave your device. We collect:

- Your anonymized IP-address, in order to count your visit;
- Actions: page visits, clicks, whether you highlight a document, etc.

We use Google Analytics for these purposes, and have instructed Google explicitly to not profile you — all tracking options have been turned off.

... but how does Tuchu make money, then?

Tuchu is currently in beta. Depending on a positive response, we will offer paid plans or privacy-friendly ads in the future. If we reach that point, we will update this privacy policy accordingly.

How do I contact you?

Feel free to reach out at hello@tuchu.app.
